# HICP Guiding Principles

(from our Vision  
and Mission  
document)

1. All participants agree to basic principles prioritizing equity, community resilience, and health in all programs and projects.
2. All participants agree to approach issues with an open mind, be willing to engage in dialogue, and commit to thinking boldly about solutions.
3. Participants will state views and ask genuine questions.
4. Participants will seek to avoid monologues and arguments; move to conversations where participants are curious and seek to understand various points of view.
5. Participants will explain reasoning and intent; share how we reach our conclusions so that others can understand our divergent reasoning.
6. Participants will attack the problem and not the person, organization, or institution.
7. Participants will define key terms so that we can attain a shared understanding.
8. Participants will share all relevant information.
9. Participants will always arrive prepared for the meeting.
10. During meetings, only one person speaks at a time; we will not engage in sidebar conversations.
11. Participants will work to develop a comprehensive, common set of information with which to solve problems and make decisions.
12. Participants will jointly design next steps.

# Care First and Community Investment Initiative

## La Iniciativa Care First and Community Investment

- **CFCI CONCEPT RECOMMENDATION FORM SUBMISSION WINDOW EXTENDED TO JANUARY 20, 2023**
- The Care First Community Investment (CFCI) [Concept Recommendation Form](#) is designed to collect detailed project and concept recommendations for the CFCI Advisory Committee's Year 3 Spending Plan

Los Angeles County's Care First and Community Investment Initiative (CFCI) invests County funds to address unfavorable outcomes caused by racially motivated criminal justice disparities and long-term lack of community financial investment. These projects include direct community investments and alternatives to incarceration and are based on the sequential interception model framework. For more information on the sequential intercept model of alternatives to incarceration, [click here](#).
