HICP Guiding Principles

(from our Vision
and Mission
document)

1. All participants agree to basic principles prioritizing equity, community resilience, and health in all programs and projects.
2. All participants agree to approach issues with an open mind, be willing to engage in dialogue, and commit to thinking boldly about solutions.
3. Participants will state views and ask genuine questions.
4. Participants will seek to avoid monologues and arguments; move to conversations where participants are curious and seek to understand various points of view.
5. Participants will explain reasoning and intent; share how we reach our conclusions so that others can understand our divergent reasoning.
6. Participants will attack the problem and not the person, organization, or institution.
7. Participants will define key terms so that we can attain a shared understanding.
8. Participants will share all relevant information.
9. Participants will always arrive prepared for the meeting.
10. During meetings, only one person speaks at a time; we will not engage in sidebar conversations.
11. Participants will work to develop a comprehensive, common set of information with which to solve problems and make decisions.
12. Participants will jointly design next steps.

COVID Update

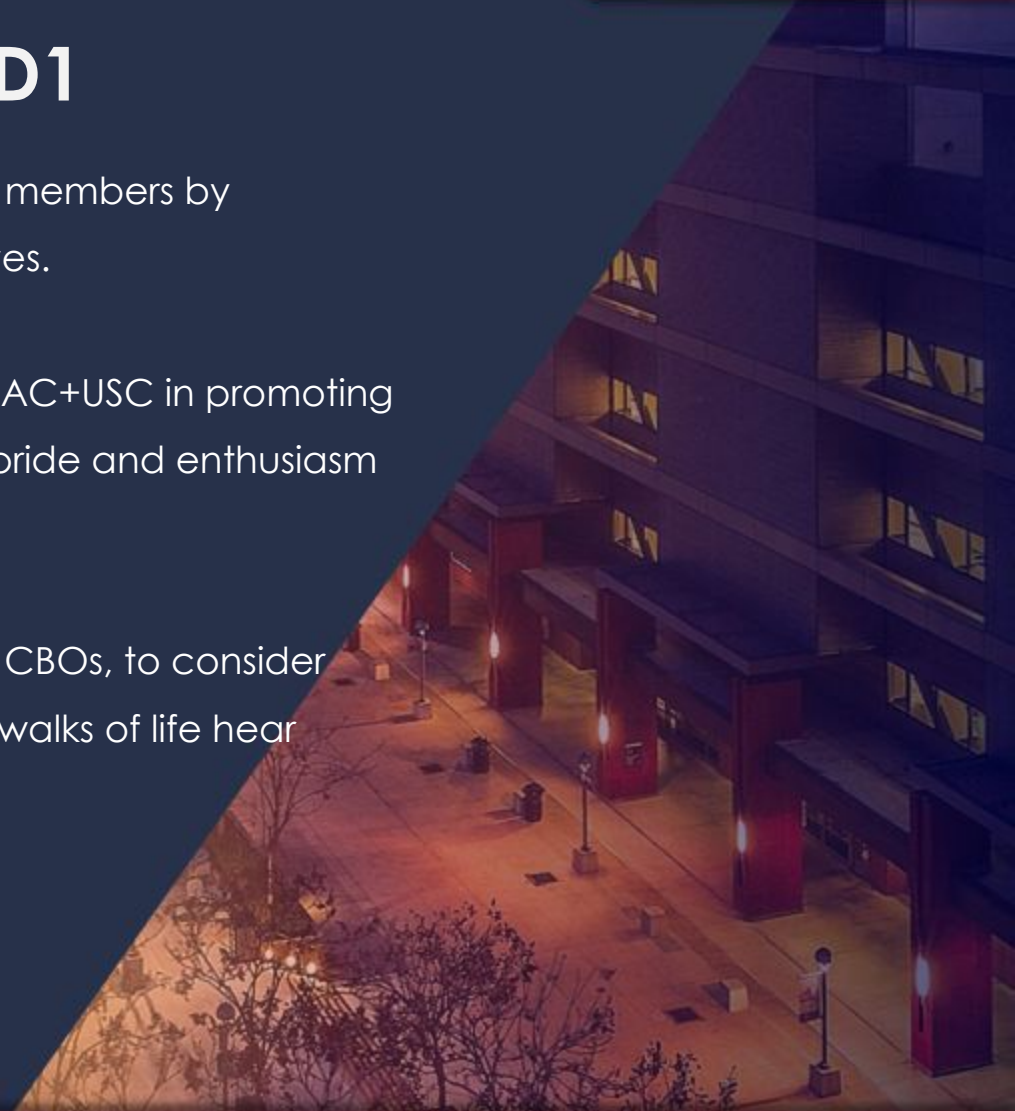

New Rebranding Sub-Committee

Staff, Community, Union, Patients, HICP, SD1

The purpose of the subcommittee is to follow up on the initial engagement of staff members by leveraging the expertise and experience of key staff members/union representatives.

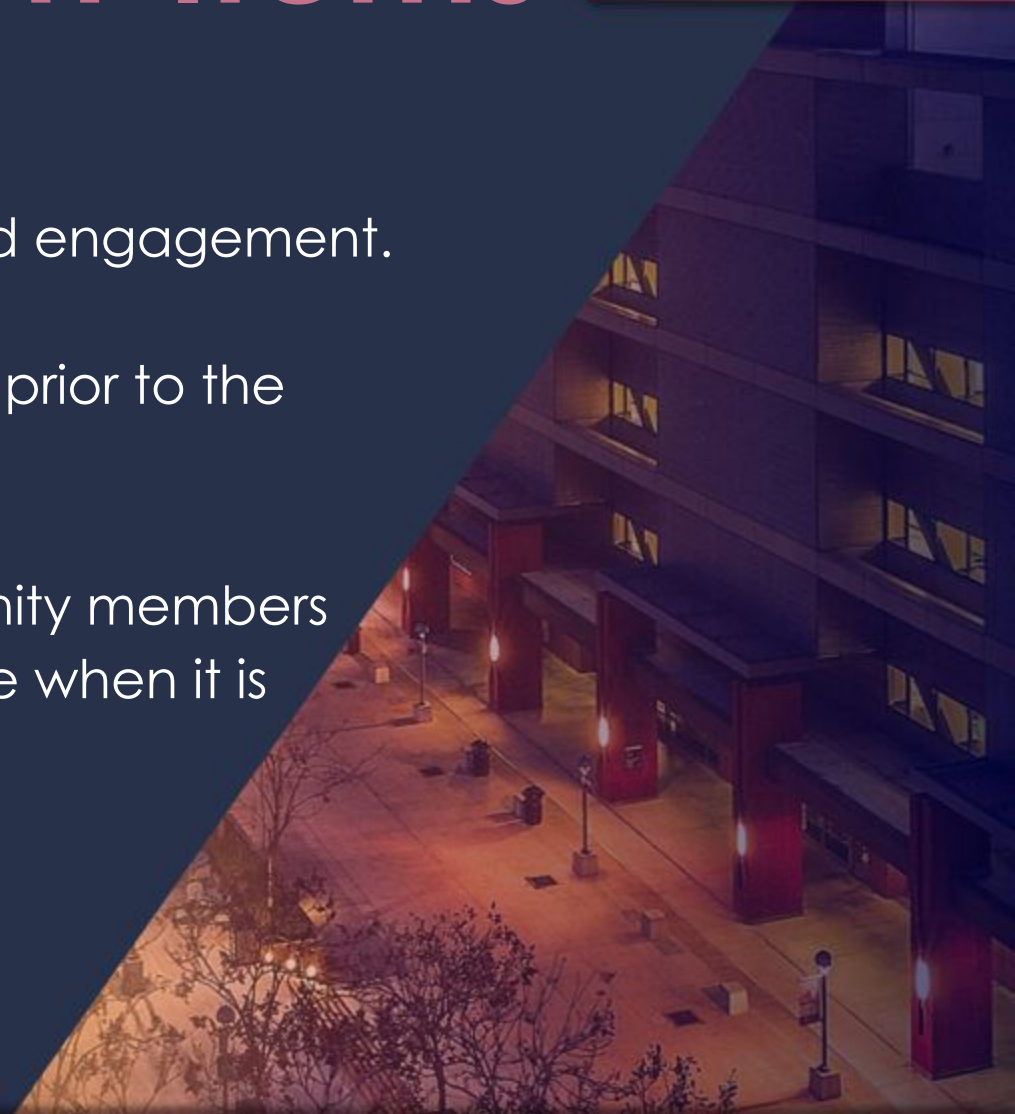

Members will lead in identifying the best ways to engage workforce members at LAC+USC in promoting the new name, along with the Medical Center's excellent care, and to generate pride and enthusiasm among staff.

In the future, the subcommittee will also include patients and representatives from CBOs, to consider how to engage Angelenos when the name is announced, so that people from all walks of life hear about the new name.

Sub-Committee Action-Items

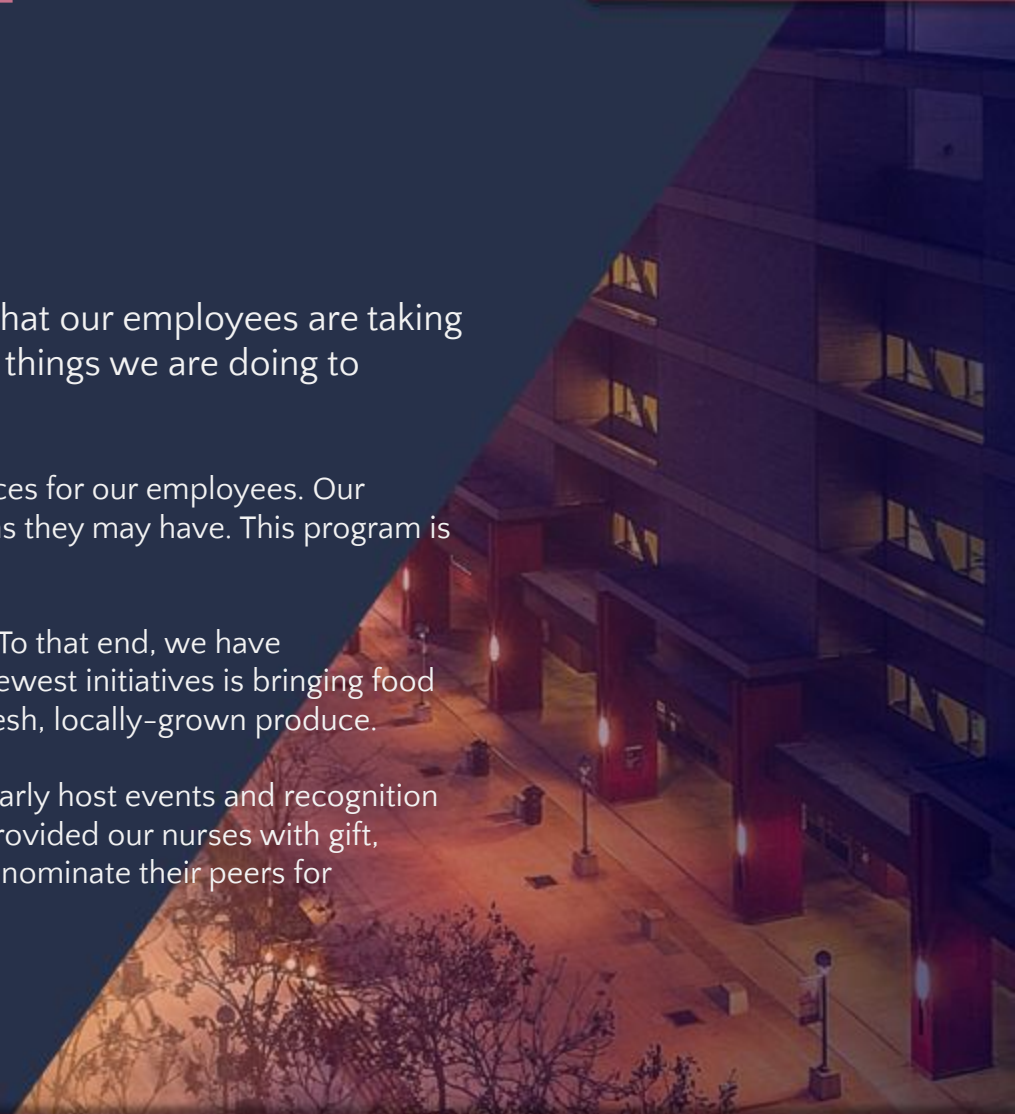

1. Identify opportunities to increase staff enthusiasm and engagement.
2. Maintain confidentiality of the new name and brand prior to the official public unveiling.
3. Recommend strategies to engage staff and community members across LA County so they are aware of the new name when it is announced.

Employee Health and Awareness Initiatives

We understand that staff burnout and fatigue can be a serious issue. We want to make sure that our employees are taking care of themselves so they can provide the best possible care to our patients. Here are a few things we are doing to support our staff:

1. **H3 Mental Health One-on-One:** Our H3 mental health program provides one-on-one counseling services for our employees. Our employees can schedule appointments with a licensed counselor to discuss any mental health concerns they may have. This program is completely confidential and free to our employees.
2. **Employee Engagement:** We believe that it's important to keep our employees engaged and motivated. To that end, we have implemented several programs to make sure our employees feel appreciated and valued. One of our newest initiatives is bringing food trucks to the hospital. We have also launched a farmer's market where our employees can purchase fresh, locally-grown produce.
3. **Events and Recognition:** We believe in recognizing our employees' hard work and dedication. We regularly host events and recognition ceremonies to show our appreciation. For example, we recently held a nurse's celebration where we provided our nurses with gift, photo booth in their honor. We also have an employee recognition program where our employees can nominate their peers for outstanding work.

COUNTY OF LOS ANGELES

LA County Fair Chance Campaign

ARP Program Goals

- 1) Increase awareness of the Fair Chance Act among businesses and system-impacted individuals
- 2) Empower 1,000 reentry individuals with the information about their rights under the CA Fair Chance Hiring Act and equip them with the tools needed to be work-ready
- 3) Provide 500 businesses with the information and guidance to implement Fair Chance hiring practices and access hiring incentives, resulting in a minimum of 200 businesses that commit to hire at least one (1) system-impacted individual by June 30, 2023. hiring

Los Angeles documentary photographer and film maker Brandon Tauszik

The installation focused on uplifting the stories of system-impacted individuals who shared some of their learnings from past experiences, the milestones they have reached, and the hopes and goals they still have for their futures.

- Share Industry-focused Career Pathway Toolkits
- Employer panel
- Personal testimonial from an SII success story
- Job fair of fair chance employers

Goal:

- Refer SIIs to AJCCs to obtain workforce training, supportive services, and connected to fair chance employers

Career + Construction

In partnership with
Apprenticeship Readiness Fund

**department
of economic
opportunity**
COUNTY OF LOS ANGELES

High Road Model

Career+

Model

Industry

Experts

Intermediaries & employer engagement. The Apprenticeship Readiness Fund (ARF)/ Multi-Craft Core Curriculum (MC3) fall under the LA/OC Building Trades Council umbrella.

Training & Supportive

Services

Employer driven training, stipends, supportive services, cash aid

Job Hires

Apprenticeships, high-quality jobs, living wages, benefits

High Growth Sector

Construction has recovered jobs lost during the pandemic and will continue to grow employment over the next 2 years. An estimated 2,100 jobs are forecasted for 2023-2024. (2023 LAEDC Economic Forecast)

Career+ Construction

Provide registered pre-apprenticeship training in the form of the labor-approved Multi-Craft Core Curriculum (MC3) to populations most impacted by COVID-19 to lead to union apprenticeships in the building trades.

Program Impacts:

The Career + Construction program will support its participants with training, case management, supportive services, stipends, and job placement/retention.

The Career + Construction program will work with training partners to conduct a comprehensive assessment to identify obstacles and potential barriers individuals may face at the outset of the MC3 program. This will provide a clear understanding of the support needs in order to adequately address those needs.

Impact

- 175 participants
- Participants receive \$400 living stipend per week during training
- 80% complete MC3 training and secure full-time employment

Post-Apprenticeship: Project Labor Agreements (PLA's)

Project Labor Agreement - also known as a **Community Workforce Agreement (CWA)**, is a pre-hire collective bargaining agreement with labor unions that establishes the terms and conditions of employment for a specific construction project.

The LA/OC MC3 Project gives priority populations from under-represented communities access to these opportunities. Currently, the Council has over 100 active PLAs with more opportunities on the horizon. The newly passed **Countywide Community Workforce Agreement** will have significant impacts on procuring new PLA's. The Countywide CWA will be applicable to all Departments, Commissions, and Agencies delivering County capital and construction projects. An increasing number of PLAs are covering projects that make a positive impact on air quality and include the utilization of energy efficient power generation.

Careers for a Cause (C4C)

Careers for a Cause - Department of Economic Opportunity
(lacounty.gov)

**department
of economic
opportunity**
COUNTY OF LOS ANGELES

Careers for a Cause

Earn and learn with LA County! Start a career and help individuals with similar lived experiences.

Careers for a Cause (C4C) is an 8-week training program that connects LA County residents with lived life experiences such as homelessness, justice system involvement, and other marginalization's to hands-on, paid training and job placements in the social services sector.

Potential participants will receive case management support, supportive services, and necessary tools for economic self-sufficiency and re-entry to employment. C4C has now expanded countywide through the American Rescue Plan Act.

How to Apply

See a [listing of all open recruitment programs](#) available throughout LA County.

USC Proposed Discovery and Translational Research Hub

Actualización del proyecto del hospital general y west campus RFP

David Galaviz, Associate Vice President, Government and Community Relations Bryan Eck, Executive Director of Land Use And Planning Dr. Michele Kipke, Associate Vice President for Strategic Health Alliances and Co- Director of the Southern California Clinical and Translational Science Institute Dr. Thomas Buchanan, Vice Dean for Research in Keck School of Medicine and Director of the Southern California Clinical and Translational Science Institute

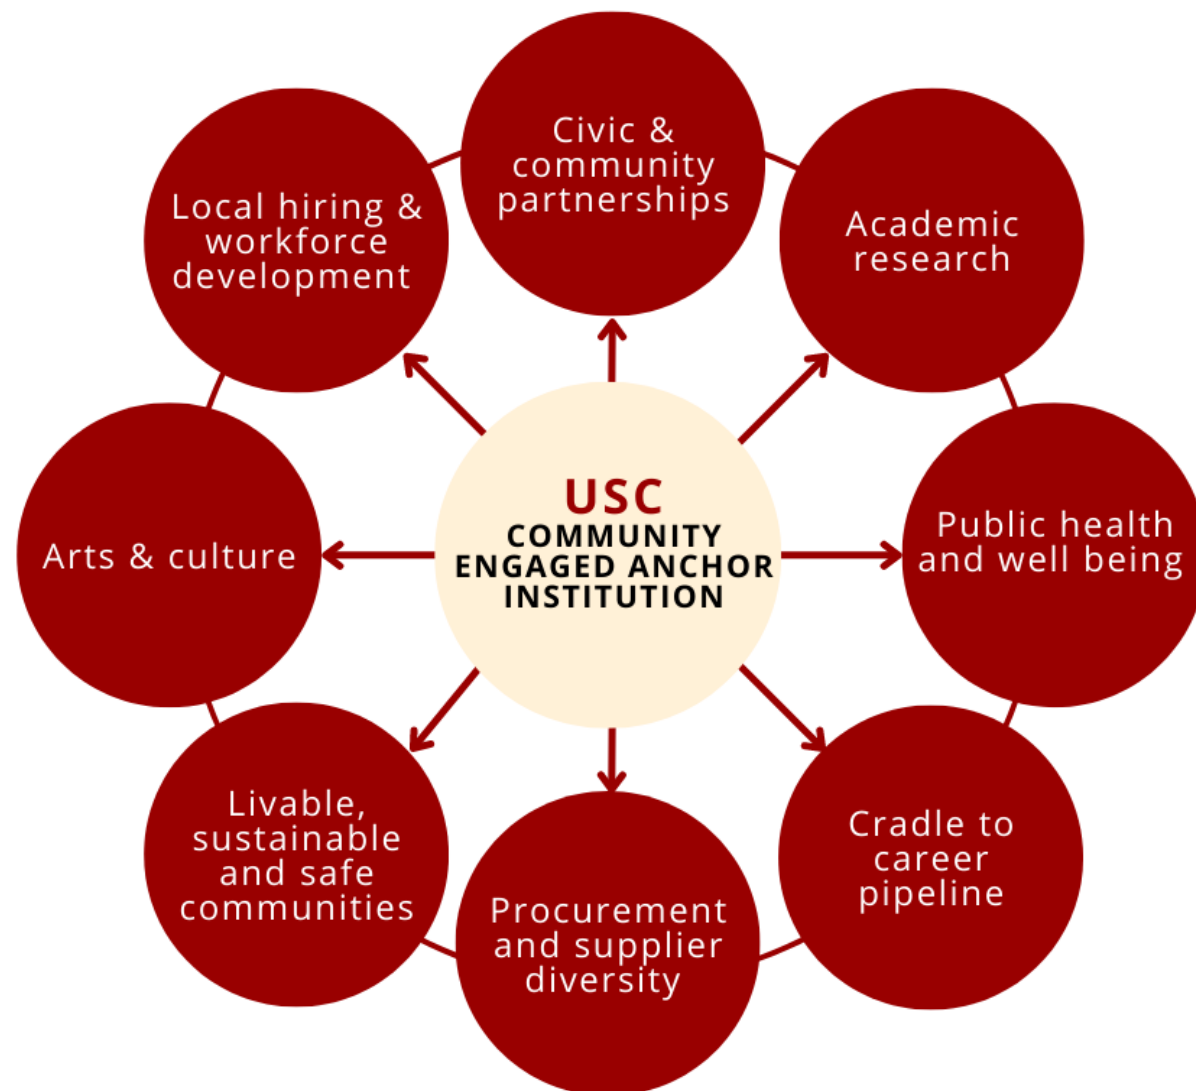

USC HSC DISCOVERY & TRANSLATIONAL HUB

03/03/2023

Partnering for Greater Impact

Pursuing just and equitable communities

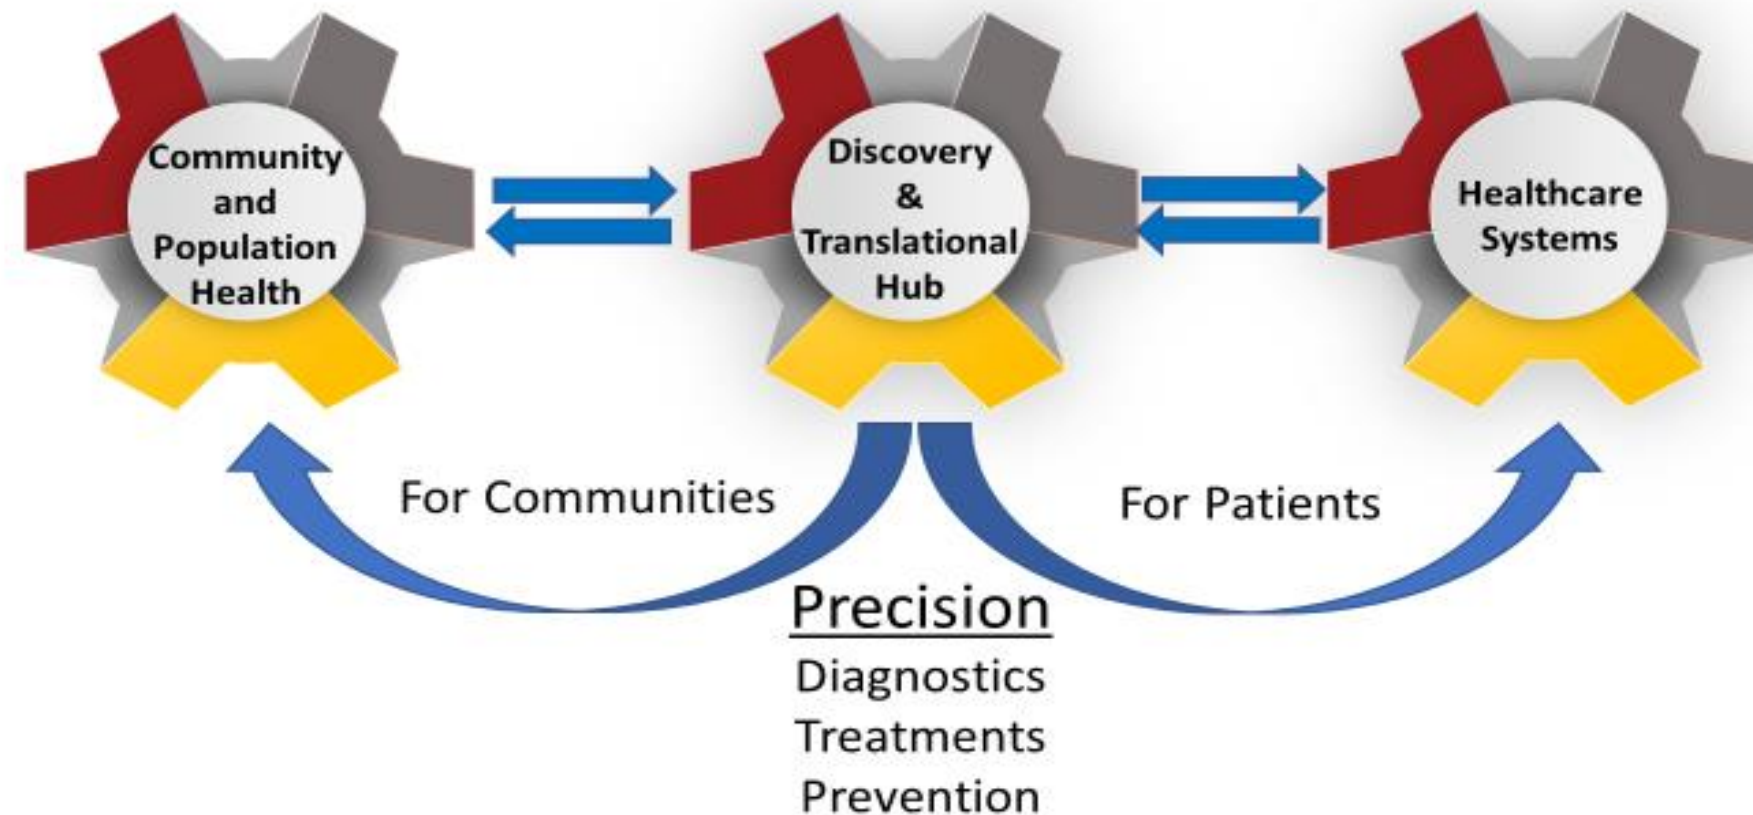

USC Anchor Institution Efforts

- As one of the city's largest private employers, USC is a local hub for research and innovation.
- Together with partners, we help advance...

The USC Health Research Ecosystem

From Communities and Patient to Research and Back

In the new Discovery and Translational Hub

- real-world health problems from patients and communities will help establish research priorities
- patient and community data will inform research discoveries and translation to care
- We will develop new treatments, diagnostics, and preventions that really matter to our patients and communities.

What is translational science?

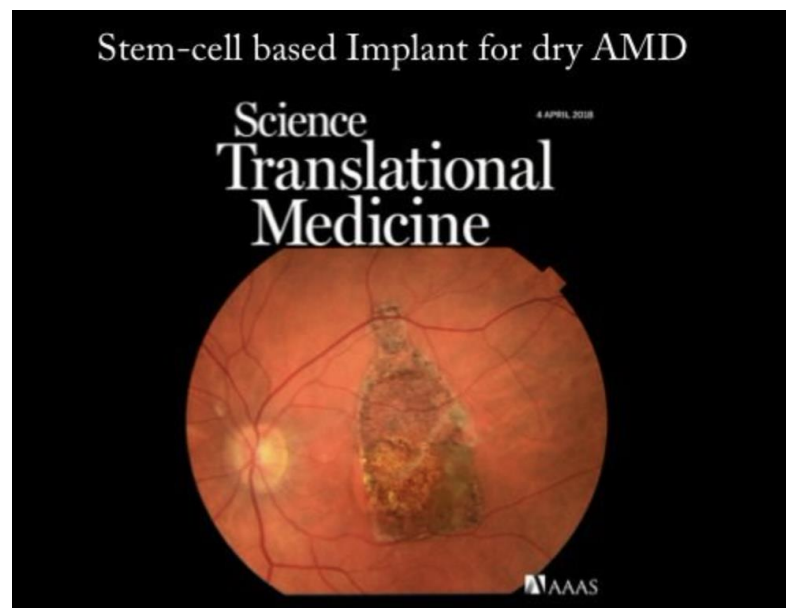

Translational research is the process of taking scientific discoveries and using them to develop new treatments, therapies, and diagnostic tools to improve human health.

Translating Science into Solutions for Better Health

Mark Humayun, MD, PhD
Co-Director, USC Roski Eye Institute
Director, Institute for Biomedical
Therapeutics, Keck School of Medicine

Promoting Community Health and Wellness

- HSC is a focal point for students, patients, and scientists.
- Developed first Covid-19 community response strategy.
- USC Family Medicine and other departments.
